- MAC OSX 10.5+
- Linux kernel 2.6+

*A low cost, entry level secure USB built to **PROTECT** your sensitive data from falling into the wrong hands.*

KEY FEATURES

XTS MODE | Strong AES256-bit hardware encryption in XTS-Mode.

BRUTE FORCE PROTECTION | Prevents against password guessing attacks by resetting after 10 failed attempts.

COMPUTER PROTECTION | Protect your device and computer from unauthorised access by automatically locking, logging out or shutting down your computer if your device is left unattended.

FAST | Transfer data on and off your device with fast USB 3.0 speeds.

Safexs Protector Basic meets companies needs for protecting data at rest by encrypting all data with its on-board hardware encryption controller, all sensitive information is 100% encrypted with AES256-Bit encryption in XTS mode. This drive comes with all standard features of a hardware encrypted device, plus computer protection and support for the latest Windows, Mac and Linux based operating systems.

Safexs Protector Basic has been designed specifically as an entry level hardware encrypted flash drive, helping to reduce costs whilst still maintaining high security requirements. All Safexs Protector Basic drives are packed in bulk packaging which reduces empty space and removes unwanted avoidable packaging, helping save the environment.

WHY SAFEXS?

Safexs encrypted products are designed and developed by CTWO Products AB in Europe, all Safexs encrypted devices are unique in the market and come packed with security and productivity features that help a user remain safe whether they are working on a Windows, Mac or Linux based machine.

CTWO Products AB has been designing encrypted solutions since 2007.

CTWO Products AB

ABOUT CTWO PRODUCTS AB - A market leader in providing customised USB and encryption solutions out of its head office in Malmo, Sweden. Safexs has been deployed worldwide to government agencies, healthcare, education and corporates.

AUTHORISED PARTNER

EU GDPR

The EU General Data Protection Regulation is a new regulation that is intended to strengthen and unify data protection, across the 28 EU member states, protecting sensitive personal information from being lost, stolen or shared.

From 2018 it will be a crime to lose unprotected data and you will be fined wither 4% of annual global turnover or €20 million, whichever is greater.

DESIGNED IN SWEDEN

CROSS PLATFORM - Safexs Protector Basic works beautifully on Windows, Mac & Linux based machines.

Bulk packaging, help save the environment
