PCIe Gen3 x4 M.2 SSD MTE850

Transcend's MTE850 M.2 SSD utilizes the PCI Express® Gen3 X4 interface supported by the latest NVMe™ standard, to unleash next-generation performance. The MTE850 M.2 SSD is aimed at high-end applications, such as digital audio/video production, gaming, and enterprise use, which require constant processing of heavy workloads without system lags or slowdowns of any kind. Powered by 3D MLC NAND flash memory, the MTE850 M.2 SSD provides not only fast transfer speeds but also unmatched reliability.

High performance controller with 3D MLC NAND Flash

- PCIe Gen3 x4 interface and NVMe standard
- Up to 2,500MB/s read and 1,100MB/s write performance
- Space-saving M.2 Type 2280 form factor
- Engineered with a RAID engine and LDPC (Low-Density Parity Check) coding
- Built-in SLC caching technology
- Supports Transcend SSD Scope software
- Three-year Limited Warranty

Dimensions (max.)	80.0mm × 22.0mm × 3.58mm
Weight (max.)	8g
Flash Type	3D MLC NAND Flash
Connection Type	M.2 module notch M
Form Factor	2280-D2-M
Maximum Performance*	Seq. read: 2,500MB/s Seq. write: 1,100MB/s 4K random read: 270,000 IOPS 4K random write: 130,000 IOPS
Operating Voltage	3.3V±5%
Operating Temperature	0°C (32°F) ~ 70°C (158°F)

3D era for superb performance

SATA III 6Gb/s 2.5" SSD SSD230

Transcend's SSD230 SATA III 6Gb/s SSD adopts the latest 3D NAND technology to achieve high storage capacities and performance. By using only high-quality flash chips and enhanced firmware algorithms, the SSD230 is guaranteed to deliver greater performance and reliability.

High performance controller with 3D TLC NAND Flash

- Up to 560MB/s read and 520MB/s write performance
- Engineered with a RAID engine and LDPC coding
- Built-in SLC caching technology
- Supports DevSleep mode
- Supports S.M.A.R.T., TRIM, and NCQ commands
- Three-year Limited Warranty

Dimensions	100mm x 69.85mm x 6.8mm

Body Cameras

DrivePro™ Body 30

Transcend's DrivePro Body 30 is a feature-packed body camera designed specifically for public safety professionals. With a twelve-hour battery life, IP67 rated environmental sealing, military-grade shock resistance, and a pre-event buffer, the DrivePro Body 30 is always ready for action. The Sony image sensor, high-quality lens, automatic infrared illumination, and six-axis image stabilization guarantee clear, high-definition evidence collection. Paired with Transcend's DrivePro Body App for iOS and Android smartphones, users can easily control the DrivePro Body 30, and manage videos and photos on the device.

Supports Bluetooth technology and Wi-Fi connection

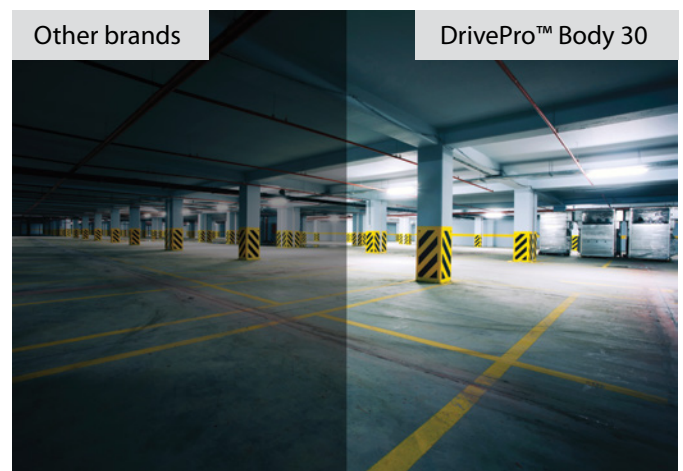

- Pre-event buffer to capture the whole story
- Infrared LEDs for low light conditions and night vision
- 6-axis image stabilization technology
- Built-in twelve-hour battery for all day recording
- Exclusive DrivePro Body App for live streaming preview, file management, and camera configuration
- Convenient snapshot button to capture photos while recording
- Compliant with IP67 and U.S. military standards* to be dust-proof, waterproof, and shock resistant
- Stealth mode and vibration alerts
- Paired with Transcend's docking station for simultaneous data upload and charging (optional)

Dashcams

DrivePro™ 230

Transcend's DrivePro 230 dashcam was designed with both style and safety in mind. The DrivePro 230 features a Sony image sensor to capture high-resolution videos with extremely fine tonal gradation even in low light. In addition, it features a GPS receiver, a built-in battery, a handy snapshot button, and Wi-Fi connectivity. More than just a safety device, Transcend's DrivePro 230 is a fellow traveler ready to explore more of the world with you.

Comprehensive protection of your on-road safety

- GPS/GLONASS geolocation precisely determines your position when an incident happens
- Lane Departure Warning System (LDWS) prevents potential incidents
- Forward Collision Warning System (FCWS) maintains a safe distance
- Parking monitoring mode safeguards your vehicle while you're away
- Driver fatigue alert regularly reminds the driver to be fully rested
- Headlight reminder automatically activates when poor lighting conditions are detected
- Built-in Wi-Fi connectivity for mobile live streaming

DrivePro. Bring you safety.

DrivePro™ 130

Road safety is important. Transcend's DrivePro 130 dashcam utilizes a Sony image sensor to provide high-resolution images with extremely fine tonal gradation even in low light. In addition, the DrivePro 130 features Wi-Fi connectivity, a built-in battery, a handy snapshot button, emergency recording, headlight reminder, and driver fatigue alert.

Built-in Wi-Fi connectivity

- Sony image sensor for enhanced night vision
- Built-in battery ensures uninterrupted recording
- Convenient snapshot button to capture photos while recording
- Emergency recording protects critical evidence from being overwritten
- Parking monitoring mode safeguards your vehicle while you're away
- Driver fatigue alert regularly reminds the driver to be fully rested

Personal Cloud Storage

StoreJet® Cloud 110 (1-Bay)
StoreJet® Cloud 210 (2-Bay)

Rather than rely on fee-based public cloud storage services to store your personal data, opt for Transcend's StoreJet Cloud to get up to 8TB of personal storage space and the peace of mind that goes with having total control over your data. Transcend's StoreJet Cloud features amazingly fast transfer speeds of up to 110 MB/s and centralized data management, allowing for efficient storage and immediate access to all your data even if you're miles away.

Worldwide access. Mobile setup.

- Simple, easy smartphone-based setup
- Worldwide access to all of your data
- Exclusive app with easy user interface
- One touch backup from USB flash drives to StoreJet Cloud
- Automatically backup photos and videos stored on mobile devices to StoreJet Cloud
- Media streaming to compatible devices
- Eco mode to save power
- Built-in RAID 1 data mirroring technology (StoreJet Cloud 210 only)

Full backup to one central location

Apple Solutions

JetDrive™ Go

Transcend's JetDrive Go Lightning/USB flash drives are designed to instantly expand your iPhone®, iPad®, or iPod® storage by up to 128GB. With the exclusive JetDrive Go App, you can effortlessly explore, move, back up, and manage photos and videos between the JetDrive Go and your iOS devices without Wi-Fi or 3G/4G connections. Equipped with a USB 3.1 Gen 1 / USB 3.0 connector on one side and a Lightning connector on the other, the JetDrive Go allows you to transfer digital files to and from Mac computers, PCs, and laptops with blazing-fast transfer rates.

Up to 128GB extra storage for your iPhone, iPad, and iPod

- Up to 128GB extra storage for your iPhone, iPad, and iPod
- Lightning and USB 3.1 Gen 1 / USB 3.0 dual connectors*
- Extended Lightning connector for easy plug-in
- Up to 130MB/s of transfer speeds provided by the USB 3.1 Gen 1 / USB 3.0 connector
- Directly save photos, videos, or audio recordings to the JetDrive Go
- Apple MFi-certified

Free download of JetDrive Go App and JetDrive Toolbox

*Both connectors cannot be used at the same time.
 Apple, Mac, MacBook Pro, MacBook Air, Retina, iMac, Mac mini, iPhone, iPad, and iPod are trademarks of Apple Inc.

JetDrive™ Lite

Transcend JetDrive Lite expansion cards are a simple way to instantly boost the total available capacity of your MacBook® without the need to upgrade to a larger capacity SSD.

Low-profile design

With the JetDrive Lite inserted, you'll barely notice it's there. Not only is it seamlessly integrated with your MacBook, but the JetDrive Lite is so light that you can take your files everywhere without any hassle. Transcend's JetDrive Lite expansion cards won the prestigious Good Design Award for top quality and groundbreaking design.

*Performance varies by capacity, user hardware, and system configuration.

**Late 2010, Mid 2011, and Mid 2012 MacBook Air models have reduced performance as the card reader can only support up to USB 2.0 transfer speeds.

JetDrive™

The JetDrive SSD upgrade kit is specifically developed for the MacBook Air® and MacBook Pro® with Retina® display. Necessary tools, installation guides, and a slick aluminum USB 3.1 Gen 1 / USB 3.0 enclosure are included to help complete the upgrade process. Transcend's JetDrive SSD upgrade kit allows you to both increase your storage space, and boost the performance of your Mac®.

Take control with JetDrive Toolbox.

Exclusively developed by Transcend, the JetDrive Toolbox helps maintain a healthy and efficient SSD by keeping it up-to-date, preventing functional degradation, and predicting problems before they happen. The JetDrive Toolbox clearly displays drive information, S.M.A.R.T. status for possible drive failure, health indicator for estimated lifespan left, and firmware upgrade.

Free download of
JetDrive Toolbox

One deal. Double benefits.

The JetDrive SSD upgrade kit comes with an additional external enclosure. Its sturdy aluminum case perfectly protects your original SSD from any external damage. Thanks to the SuperSpeed USB 3.1 Gen 1 / USB 3.0 interface, waiting for transfers to complete becomes a thing of the past. Pop your original SSD in the enclosure, and straightaway you've got a sleek, new external storage device.

Memory Cards

SD Cards SDXC/SDHC UHS-II U3

Ordering Information

TS32GSD2U3	32GB
TS64GSD2U3	64GB

Transcend's SDXC/SDHC Class 3 UHS-II SD cards are designed for the latest UHS-II compatible DSLRs and camcorders to bring out their true potential. Featuring incredible read and write speeds of up to 285MB/s and 180MB/s* respectively, the cards allow professional outdoor photographers and videographers to capture flawless RAW images and record ultra-high quality 4K, 2K, and Full HD videos.

Speed Class Rating
 a minimum of 10MB/s read/write performance when used with a non UHS-I compatible device

Ultra High Speed Class 3 (U3)
 a minimum of 30MB/s write speeds when used on the UHS interface

Interface "II"
compatible with the UHS-II interface

Bus Interface	Card Type	Bus Speed
Normal Speed	SD, SDHC, SDXC	12.5MB/s
High Speed	SD, SDHC, SDXC	25MB/s
UHS-I	SDHC, SDXC	50MB/s (SDR50, DDR50), 104MB/s (SDR104)
UHS-II	SDHC, SDXC	156MB/s, 312MB/s

* Transfer rate is based on internal Transcend testing. Actual transfer speed may vary due to host hardware, software, and usage.

Source: SD Association.
SDHC/SDXC UHS-II memory cards achieve best performance when paired with SDHC/SDXC UHS-II compatible devices.

Memory Modules

DDR4 Memory Modules

Built to exacting specifications with the finest chips and components available, Transcend DDR4 memory modules undergo rigorous laboratory testing to deliver stable performance and durability. Each memory module is rated at 2400MHz to greatly increase data transmission efficiency by higher bandwidth of up to 19GB/s, and operates at a nominal voltage of just 1.2V to reduce the overall power consumption for saving more energy.
