Card Readers

RDE2

Transcend's CFexpress Type B Card Reader RDE2 is designed for use with CFexpress Type B memory cards. The USB 3.2 Gen 2x2 interface offers 20 Gbps transfer speeds, guaranteeing photography and cinematic experts excellent performance. It supports USB Type-A and Type-C devices, satisfying professionals' need to connect to different gadgets. The lightweight aluminum exterior and a non-slip silicone cover make the device highly portable and durable.

A trustworthy choice

Tailored to professional photographers using DSLR and advanced camcorders, Transcend's CFexpress Type B Card Reader RDE2 is designed for CFexpress Type B memory cards. This makes it the perfect choice for specialists. Boasting superior speeds and operational flexibility—as it supports both USB Type-A and Type-C computers, laptops, and mobile devices—the RDE2 card reader helps to make media production a snap!

20 Gbps blazing-fast transfer speed

The RDE2 card reader is equipped with a USB interface meeting the latest USB 3.2 Gen 2x2 specification. This means the device offers the eye-popping data transfer rate of 20 Gbps for smooth performance.

Notes:
1. The RDE2 card reader does not support XQD® cards.
2. 20 Gbps can only be achieved when the RDE2 card reader is connected to USB Type-C devices.

Maximum flexibility: USB Type-A and Type-C supported

Frustrated that your gadgets come with different port types? The RDE2 card reader solves that by providing USB Type-A and Type-C cables, allowing you to work more efficiently.
